Salman Scorio

Web Developer, UI/UX & AI Specialist

I love coding, know- Why?

*"If there is nothing then nothing! Surprisingly I exist & he created me!
Here is everything! I'm everything!"*

PROFESSIONAL SUMMARY

An engineering-driven Web Developer and UI/UX Specialist bridging software development architectures with sophisticated user experiences. Highly skilled in frontend frameworks, system styling, database development, and open-source CMS customization alongside deep integration of AI-assisted engineering frameworks.

EXPERIENCE

Director

EasyBusy.org

November 2022 - Present | Bangladesh

Directing modern digital strategies, system layouts, and frontend engineering pipelines. Overseeing complex web product architecture with strict adherence to scalable, accessible user patterns.

EDUCATION

[Multimedia University, Malaysia](#)

BSc in Computer Science and Engineering (CSE)

2017 - 2020

Core Understanding:

- Advanced coding architectures, complex systems logic, and data processing arrays.
- Web infrastructure engineering, advanced responsive UI framework integration, and modern database (MySQL) systems.
- Integration of artificial intelligence and machine intelligence workflows into software logic layers.

[University of Chittagong](#)

BSc in Engineering Physics / Applied Physics

2012 - 2016

Core Understanding:

- Logic structures, physical electronics engineering, operational system modeling, and data evaluation methodologies.
